OBJECTIVES

Detail-oriented engineering graduate with skills in Python, SQL, and web development. Seeking a junior software engineering role to apply technical knowledge, enhance real-world experience, and contribute to building reliable and scalable applications.

SKILLS AND INTEREST

- **Technical Skills:** Python, C, MongoDB, SQL, Core Java, Robotics and Automation
 - **Frontend Technologies:** HTML, CSS, Bootstrap
 - **Frameworks & Tools:** Django, Flask, Numpy, Linux, Visual Studio, GitHub
 - **Analytical & Productivity Tools:** Excel (Advanced)
-

EDUCATION

Bachelor Of Engineering In Electronics & Telecommunication Jagadambha College
Of Engineering & Technology Yavatmal, India, CGPA-7.45

Higher School Certificate (HSC)

Shri Shivaji Junior college of Science Yavatmal, India, Percentile - 80.33%

Secondary School Certificate (SSC)

Sunrise English Medium School Yavatmal, India, Percentile - 79.60%

INTERNSHIPS

Cravita Technology Pvt,Ltd at Intern, Pune

June 2025 - Present

- Developed software solutions using Python and SQL, enhancing operational efficiency.
- Collaborated with cross-functional teams to troubleshoot and resolve technical issues.
- Assisted in the design and implementation of embedded systems projects.

Web Development Intern at Pantech AI

Mar 2024 - Dec 2024

- Online internship program focused on web development skills using HTML and CSS.
 - Designed and implemented responsive web applications, ensuring compatibility across devices and seamless user experiences.
 - Gained valuable hands-on experience working on real-world web development projects.
-

PROJECT

Saptrangi - Full Stack E-Commerce Platform

- Developed a fully functional e-commerce web application using Python (Django REST Framework), React.js, and MongoDB.
- Implemented user authentication and secure payment integration with Razorpay API.
- Built a dynamic admin dashboard for product, order, and stock management with real-time data updates.
- Focused on scalability, performance, and end-to-end e-commerce features including delivery tracking and order management.

Romify - Custom ROM Aggregator Platform

- Developed a responsive web application using HTML, CSS, Bootstrap, **Python, Flask**.
 - Designed a **user-friendly** interface that aggregates and displays available custom ROMs for Android users in one place.
 - Implemented **structured UI** components for smooth navigation and quick ROM discovery.
 - Focused on scalability and maintainability for adding future **ROMs** and updates
